

DATA NICHE - CMMView™

Think it's impossible to manage contacts and communications in one central location?
Think Again.

Created for your specific market needs, CMMView™ is a vital Communications Management Module designed to help manage and track your company's important communications with PBMs, MCOs, State Medicaid Agencies, Federal Agencies & other entities.

In addition, CMMView provides frequently updated links to each State's Pharmaceutical & Therapeutics Committee information and Preferred Drug Lists when available. Also included is a preloaded database of each State's Medicaid and CMS contacts.

DISPUTE RESOLUTION DOCUMENTATION

CMMView serves as your central location for all users to add, share and review rebate dispute resolution progress and interactions. Quickly attach electronic documents and review status in seconds!

CONTRACT DOCUMENTATION

As contract negotiations progress and multiple parties become involved, CMMView improves the process and gives the ability to quickly review status and changes. CMMView is your central location for all contract negotiations and management.

CONTACT MANAGEMENT

Enter, search and view shared contacts by *Type*, *Company Name* or *Contact Name*. CMMView is your central location for all communications! No matter how much intelligence is stored, CMMView will locate your needed information with ease.

FAST & FRIENDLY USER INTERFACE

CMMView is online and available 24-7; you'll have the power to quickly manage and access your important communications anytime, anywhere.

CMMView™ Benefits:

- Central online location to view important communications with your managed markets entities
- Conveniently copy to and or upload messages and file attachments directly from your company email
- Preloaded database of State Medicaid Agency contacts
- Updated links to each State's Pharmaceutical and Therapeutics Committee information including member names, scheduled meetings, and agenda when available
- Updated links to each State's Preferred Drug List, reimbursement rates and dispensing limits
- Task management feature helps you stay on top of your follow up dates and to-do lists
- Search and Reporting capabilities

SAVE TIME & PROMOTE CONTINUITY

In the event of employee turnover, vacations or other absence, CMMView promotes continuity in your process by giving easy access to historical and ongoing interactions.

No more time spent searching through hard copy files. CMMView provides you with immediate access to critical intelligence, allowing you to make more productive use of your time and energy.
